

Summer Studentship Scheme, 2009

Institute of Psychological Sciences

Congratulations to all the successful applications for summer studentship places this year. We had 9 successful applications to 4 different awarding bodies. The Level 2 students in the table below will be working as paid research assistants over the summer holidays on projects running from 8-10 weeks. We received 2 out of 5 bursaries awarded by the EPS, and 1 of the 10 awarded by the BPS. The Nuffield Foundation awarded 401 bursaries from 678 highly competitive applications. We aim to have an equivalent number of successful applications next year. Interested supervisors should contact **Richard Wilkie** and indicate the schemes you would be eligible to apply for (i.e. based on BPS/EPS membership or topic area).
